As many as 30 million pilgrims flooded the Hindu holy city of Ujjain to seek spiritual cleansing in the sacred Shipra River. India alone is home to 14 "super-mega" people groups with more than 10 million members each who are currently "unengaged" by a church-planting movement strategy. (Matt Jones Photo)

Veteran missionary called to bring healing in Christ's name

BANGALORE, India (BP)-Ask people around Bangalore, India, what a Christian looks like, and many would describe Rebekah Naylor, the Southern Baptist missionary surgeon who has labored at Bangalore Baptist Hospital the past 30 years.

Some Indians have seen Naylor-who currently is clinical assistant professor and surgeon at the University of Texas Southwestern Medical Center at Dallas- as a cool, precise, professional medical doctor who has performed countless surgeries and other medical procedures.

She has saved lives, delivered babies and relieved suffering for thousands

of people over her years in India.

For whom the bell tolls

Target's decision to place "no solicitation" restrictions on the Salvation Army lacks any legal or Christian justification. If nothing else, we who have discretionary funds need gentle reminders of our affluent good fortune during this abrasive period.

That Target prohibits a modest, peaceable effort to help the needy is morally inexcusable.

Since 1891, Salvation Army bell-ringers have sought funds. Standing on wet or icy pavement is no ego-inflating exercise. Rather, it is a humble reminder for us about the many unfortunates among us—our mentally and/or physically ill, addicted, veterans (one-third of our homeless are former military personnel), our inadequately educated, disabled, downsized, abandoned, our too elderly or too youthful.
