I have followed this dispute between the two Baptist groups in Texas since its inception. The fact of the matter is that both groups are right but do not have the right to insist the other accept their point of view.

"The people of China want more freedom to express themselves, to worship without state control, to print Bibles and other sacred texts without fear of punishment. ... By meeting the legitimate demands of its citizens for freedom and openness, China's leaders can help their country grow into a modern, prosperous and confident nation."

First Baptist Church in Port Neches welcomed 47 youth and adults home from an 11-day mission trip to Denia, Spain.

The group partnered with The Alpha & Omega Christian School sponsored by the Holy Trinity Baptist Church in Denia to minister to children through a sports, music and art camp. Pastor David Mahfouz, Music Minister Tim Holder and Student Minister Adam Pardue were the group's leaders. While in Denia, the youth choir sang at an official meeting in the home of the mayor and at a nursing home and were warmly welcomed at various open-air venues around the city.

TOGETHER: Make a bigger difference in Texas

The latest *Texas Almanac* came as a birthday present from my brother this past week. This is the sesquicentennial edition—for the first time printed in color! And full of facts.

It documents how Baptists have grown in Texas. There are 4.5 million of us, along with 4.4 million Catholics and 4 million aligned with other religious groups.

But the largest group of all is the “unclaimed.” They are “nonadherents to religion.” In 1990, there were 5.5 million, and now there are 8 million—an increase of almost 50 percent! If these 8 million people constituted one state, it would be the 11th-most-populated state in the nation.
