

Volunteers at HPU Impact Weekend help rebuild fire-damaged homes

September 8, 2006

Posted: 9/08/06

Kyle Kinser, a senior at Howard Payne University, measures before hanging drywall in a recently built home in Cross Plains.

Volunteers at HPU Impact Weekend help rebuild fire-damaged homes

Ninety-five Howard Payne University students spent a recent Saturday in Cross Plains, where they helped homes that had been damaged by wildfires.

The fires torched 7,600 acres across Central Texas on Dec. 27, 2005.

The student volunteers were participating in Impact weekend, through the Baptist Student Ministries at Howard Payne, working in conjunction with the city of Cross Plains and First Baptist Church of Cross Plains. The group worked on five different homes throughout the day, doing various projects including painting, hanging drywall, clearing land and digging for a foundation.

Bethany Elmore, a freshman at HPU, paints the trim on a home in Cross Plains that was damaged by the wildfires that hit in December 2005.

Josh Rhodes, a transfer student at HPU, helps with the dry walling in a home that was recently built in Cross Plains.

Skiles confronted world needs on NYC internship

September 8, 2006

Posted: 9/08/06

Stephanie Skiles, a sophomore science major at Wayland Baptist University, pauses with the Manhattan skyline at her back. Skiles worked at the New York Divinity School, located in Manhattan's Times Squares, during the summer.

Skiles confronted world needs on NYC internship

By Teresa Young

Wayland Baptist University

Many summer missions volunteers return home eager to tell other people what they learned to do. For Stephanie Skiles, her summer taught her all the things not to do in New York.

“People kept laughing at me because I was always getting stopped by the police,” Skiles said with a chuckle.

‘Auntie Joy’ humbled by summer in Malawi

'Auntie Joy' humbled by summer in Malawi

By Teresa Young

Wayland Baptist University

PLAINVIEW—Joy Miller has spent the last few years at [Wayland Baptist University](#) taking classes and getting involved in experiences that will prepare her for her future career ministering to young girls.

So it came as some surprise to her that a summer missions endeavor on the other side of the world served not so much as a practice session but as additional training.

Jalissa King traded basketball for shopping on Asia missions tour

September 8, 2006

Jalissa King, summer missionary to East Asia, pauses during a trip to the local zoo, with her friends, Anna (left), Ivy and Evans, fellow students at the university.

Jalissa King traded basketball for shopping on Asia missions tour

By Teresa Young

Wayland Baptist University

PLAINVIEW - Here's the assignment: Travel halfway around the world, attend classes at a university in another country and make friends with the nationals. It may sound like just a vacation, but the trip was much more

detailed for the students involved.

The assignment belonged to Jalissa King, a [Wayland Baptist University](#) senior from Portales, N.M., for the past summer, her second summer missions adventure to Asia.

Student's technology skills helped support missions, humanitarian groups

Wayland Baptist University

PLAINVIEW—The phrase “summer missions” typically conjures images of students sharing the gospel in foreign countries or doing manual labor in inner-city areas, with evangelism the prevalent concern. Jerod Clopton knows first-hand, though, that missions takes on very different shapes and each experience has the power to change lives.

Clopton, a senior math major at [Wayland Baptist University](#) and a native of O'Donnell, spent his summer on a farm near Meridian, working for an agency called [Greater Good Global Support Services](#), or G3S2, as an agent of [Go Now Missions](#), an arm of the Baptist General Convention of Texas [collegiate ministries](#).

CYBER COLUMN:

Doom, despair and the agony of the teeth

By Brett Younger

Carol called me at the church to say, “When I put gas in the car, the Visa card didn’t work.”

I called the Visa people who told me they cancelled our card because “you didn’t pay the bill.”

Explore the Bible Series for September 17

Listen to God's word and remain true

- Hebrews 3:1-15

By Howard Anderson

Diversified Spiritual Associates, San Antonio

Good works cannot generate salvation, but they are subsequent and consequential God-empowered fruits and evidences of it. Our salvation is a byproduct of grace and faith. We are required to believe for salvation, and faith is part of the gift of God that saves and cannot be exercised by one's own power. Timely obedience is one of the great dynamics of Christian discipleship.

Stem-cell advance raises hope, ethical questions

By Robert Marus

Associated Baptist Press

WORCESTER, Mass. (ABP)—New scientific research may defuse the culture war over embryonic stem-cell research, but it also may raise new ethical questions.

In a study publicized on the [website of the journal *Nature*](#), members of a team of scientists headed by Robert Lanza of Advanced Cell Technology in Worcester, Mass., reported they had successfully grown stem-cell colonies that were extracted from human embryos without destroying the embryos in the process.

FDA approval of new contraceptive stirs reaction

By Robert Marus

ABP Washington Bureau

WASHINGTON (ABP)—After a three-year-long debate, the federal Food and Drug Administration has approved wider distribution of a “morning-after” contraceptive, angering some religious conservatives and anti-abortion groups.

[FDA officials recently announced](#) they had approved non-prescription sales of “Plan B,” a drug designed to prevent ovulation and fertilization of a woman’s egg. The decision, however, only allows women 18 years of age or older to have over-the-counter access to the drug.
