PLAINVIEW—Estelle Owens figures she looks a bit more tired than usual these days. After all, long hours, long nights and long stretches of highway can wear on a person. But she's quick to admit every article she has read and every interview she has conducted for [Wayland Baptist University's](#) centennial history has been a labor of love.

When approached a few years back to research and compile Wayland's complete history for its centennial celebration, Owens jumped at the chance. She won't deny the work has been tedious at times and the majority of her free time has been swallowed up with the process, but she's also had the experience of a lifetime.

## **Diverse coalition forces amendment to lobbying-reform bill**

**By Robert Marus**

*ABP Washington Bureau*

WASHINGTON (ABP)—After an uproar from an odd coalition of conservative religious, libertarian and business groups, the Senate voted late to scuttle part of its sweeping lobbying-reform bill.

The Senate amended the [Legislative Transparency and Accountability Act of 2007](#) on a near-party-line vote of 55-43.

## Some evangelicals join scientists in battle against global warming

**By Robert Marus**

*ABP Washington Bureau*

WASHINGTON (ABP)—A new alliance between prominent evangelical leaders and their secular scientific counterparts to fight global warming is drawing bipartisan support in Washington—but also has some evangelical detractors.

A coalition of 28 scientists, theologians, ethicists and pastors announced a new collaborative effort on human-caused climate change. The announcement marks an escalation in the budding evangelical environmental movement and signals a willingness for some scientists and conservative Christians to put aside their differences over how and when creation came about in order to prevent its premature end.

## WMU suffers from mission board funding cuts

**By Steve DeVane**

*North Carolina Biblical Recorder*

RICHMOND, Va. (ABP)— [Woman's Missionary Union](#) of the Southern Baptist Convention, which has seen its annual revenues drop precipitously in the last eight years, now stands to lose hundreds of thousands of dollars more from one of the two mission boards it helps support.

The SBC's [International Mission Board](#) is phasing out unrestricted funding to WMU beginning this year. WMU records show the IMB sent between \$200,000 and \$325,000 a year in such funds over the last 20 years.

*Associated Baptist Press*

MIAMI (ABP)—While much has been made about NFL head coaches Tony Dungy's and Lovie Smith's skin color, they've got a stronger bond than

being the first African-American head coaches to lead their teams to the Super Bowl.

The bond of their common Christian faith is becoming increasingly evident as media scrutiny intensifies surrounding the nation's highest-profile sporting event.

*Religion News Service*

BIRMINGHAM, Ala.(RNS)—A year has passed since nine Alabama churches were [set on fire](#) by three Birmingham college students, but a lot of rebuilding remains to be done.

By late 2007, those nine churches expect to be restored or have larger, more modern facilities.
