Buckner collects humanitarian aid for earthquake victims in Peru

With more than 440 people reported dead and thousands injured following the 7.9 magnitude earthquake in Peru, Buckner International has requested donations of humanitarian aid for shipment to the struggling South America country.

“We are not a disaster relief organization, but we have a responsibility to help our brothers and sisters in crisis,” said Rachel Garton, director of Shoes for Orphan Souls. “We already have a container scheduled to send shoes and humanitarian aid to Peru in a few weeks. This is the perfect opportunity for us to really provide the victims with their most pressing needs.”

Buckner is seeking the following donated items:

Shoes and socks.
