BROWNSVILLE—Contrary to an Internet blogger's assertions, all documents pertaining to a probe into misappropriated Texas Baptist church-starting funds in the Rio Grande Valley have been turned over to federal authorities, a high-ranking official in the U.S. Attorney's Office in Houston said.

Tim Johnson, first assistant in the U.S. Attorney's Office for the southern district of Texas, confirmed receipt of materials related to a Baptist General Convention of Texas-initiated investigation into allegations of fraud and misappropriation of church-starting funds.

In Matthew's Gospel, people who are "religious" often misunderstand the life, ministry and teachings of Jesus. The Pharisees have problems with

Jesus' authority. They understand him as a threat to their position of power within the Jewish community. The Sadducees, who did not accept notions of an afterlife, spirits and angels, debate with him over interpretation of the Law and vehemently oppose him on the idea of the resurrection. The chief priests, elders and scribes worked with the Roman government to bring Jesus to trial and considered plans for his execution.

DRIPPING SPRINGS—A fire beginning in the 106-year-old sanctuary of First Baptist Church in Dripping Springs brought the structure to the ground Sept. 5. The fellowship hall was left standing, but Pastor Lanny Tanton suspected it would also have to be razed.

No one was present when the fire began, so there were no injuries. While the final report is not in, the genesis of the fire is believed to be electrical.

When the old generation of Israelites died in the wilderness after wandering 40 years, Moses assembled their descendants, the new generation, east of the Jordan River and told them to “listen to the statutes and laws which I proclaim to you this day. Learn them, and be careful to observe them” (Deuteronomy 5:1). Shortly thereafter, he recited the Ten Commandments.

But the most invigorating thing is that they believe they are living and ministering squarely in the center of God's will.

STURGIS, S.D.—The field was black and blue, covered in leather and denim, but four men from [Immanuel Baptist Church](#) in Paris were among those who could tell that it was white and ready for harvest.

The event was the world's largest motorcycle rally held each August in Sturgis, S.D. It has swelled to include a half-million people who crowd its streets—all in a town with a population of less than 7,000 people the other 51 weeks of the year.

CYBER COLUMN: Life is short

By Brett Younger

When our oldest son was born, friends came to the hospital, asked to hold the baby, and commented on how glad they were that he looked like his mother. As they were leaving, several said something like, "Don't blink, because that's how long it will be before he's off to college."

At the time, I thought it was a stupid comment. I knew any child of Carol's was going to be smart, but he wasn't ready for college.
