Americans want double standard on display

WASHINGTON (RNS)-The majority of Americans approve of the display of a Ten Commandments monument in a public building but disapprove of a similar display featuring a verse from the Koran, Islam's holy book.

The contradiction was highlighted in a new Gallup poll for USA Today and CNN.

The poll, taken Sept. 19-21 and reported Sept. 30 in USA Today, found 70 percent of U.S. adults approve of the display of a monument to the Ten Commandments in a public school or government building, while 29 percent disapprove and 1 percent had no opinion.

SBTC building \$3 million headquarters

GRAPEVINE-The Southern Baptists of Texas Convention is building a \$3 million headquarters in an office corridor near Dallas/Fort Worth International Airport.

The Dallas Business Journal reported the facility will be two stories with 30,000 square feet of space. It will be located on a 4-acre tract at 4500 State Highway 360.

In April, the convention's Executive Board approved the building plans. Construction will be paid for using \$3.3 million in surplus Cooperative Program funds collected through the end of 2002.

TOGETHER: For Texas' sake, fund new churches

Does Texas need more churches? Absolutely. We will have 1.7 million more people in Texas over the next five years. And if we do not meet them with the gospel and give them a place to belong in the body of Christ, we will be found negligent in our response to Christ's command.

The BGCT Church Multiplication Center's "Genesis Project" goal is to help start 777 churches in three years. Since the project was launched in 2002, the center has resourced the starting of 372 churches. But our ability to continue helping start churches depends on more mission dollars through the Cooperative Program and the Mary Hill Davis Offering.

Recently, Abe Zabaneh, director of the Church Multiplication Center, spoke to our Texas Baptist Missions Foundation about why we need more churches. He identified five reasons:

Four Texas Baptist colleges have joined a new prepaid college tuition plan called the Independent 529 Plan.

Baylor University, Dallas Baptist University, Hardin-Simmons University and the University of Mary Hardin-Baylor are among 200 private schools participating in the pre-paid tax shelter.

“We see this new plan as part of our ongoing effort to make UMHB accessible to more families,” said Steve Theodore, vice president for enrollment management at UMHB.

He Said/ She Said: Front seat

She Said:

My space has been invaded, and I want it back.

Luke and Garrett recently reached the magical weight and height that allows them to sit in the front seat of the car. I gave them a lecture off the bat telling them not to argue over whose turn it is to sit in front or neither of them would get to be up there in the seat of privilege. I remember fighting with my brother over the front seat many times, and I wanted to head that problem off from the start.
