Why religious papers shut down

It is a bad day when Christian news [has to be controlled](#) by powers of the church fathers—heads of the different religions. All news should be included, good or bad.

Just as in government, it is the control factor. Those in the pew need to know what is going on in every religion.

We are in a new day. That is one reason why people are leaving the church.

Pope Francis is beginning to get things corrected in the Catholic church. Good for him.
